

BIO LASH

—Eyelash Essence developed from the cell culture industry—

BIO LASH is Professional Eyelash Essence developed by Kohjin Bio with application of know-how in research and development of culture media for 30 years.

As necessary elements for your healthy eyelashes are selected and perfectly balanced, it nourishes and conditions to promote healthy lashes and skin.

Perfectly balanced elements to support
concentrated care

Physiological nutrients
Amino Acids · Vitamins · Minerals

×

Strengthen and Boost thin lashes.
Panax ginseng extract · Hydrolyzed silk

×

Moisturize
Hyaluronic acid

The diagram features several chemical structures. On the left, there is a complex structure of a peptide or amino acid derivative. In the center, there is a structure of a purine base, likely a component of a vitamin. On the right, there is a structure of a simple amino acid (threonine) and a structure of a sugar derivative, likely a component of hyaluronic acid.

BIO LASH conditions your eyelashes
for a richer fullness and boosts thin lashes
to bring out the natural beauty of your eyes.

— Designed for comfort and safety —

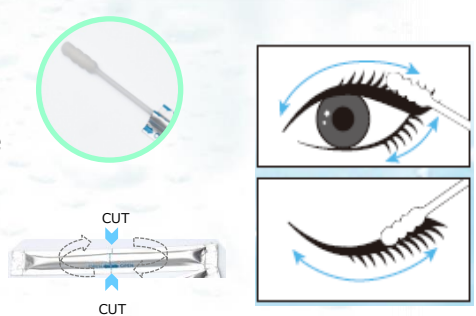

💧 Precise formulation was made possible by the cell culture industry. It is safe to use on eyelashes, skin around eyes, and eyebrows.

💧 Considering sanitation, it is intended for single use only and clean cotton swab is used every day. Use one piece per day sufficiently.

💧 It is a soft cotton swab impregnated with Eyelash Essence and easy to apply without pressing down.

How to Use

- A cotton swab is impregnated with enough Eyelash Essence for both eyes.
- Twist and pull it open along the perforation in the center of package.
- Avoid contact with eyes, but apply evenly from root to tip of eyelashes.

The diagram illustrates the usage of the eyelash essence swab. It shows the swab being opened from its packaging, and then being applied to the eyelashes of both the upper and lower eyes.
